Our aim is to put a smile on your customer's face. To do this, you need a seamless customer journey that never fails to impress, from the first touch point, throughout the entire sales cycle, and even in the case of customer service. At the same time, you can help marketing, sales and service to work together more effectively.

DYNAMICS 365 SALES

Dynamics 365 Sales is the perfect way to provide expert support to your sales department. The software supplies key information and tools, and provides insight and useful instructions for optimized customer contact.

Dynamics 365 Sales is a cloud-based CRM solution that helps companies of any size to optimize their sales process, manage customer relationships, and generate more business. It can be adjusted and scaled flexibly to suit your company's specific needs. In sales opportunity management, we can give you tools for following up on and managing sales opportunities, including forecasts, pipeline management, and activity tracking. We also help you to put together powerful analyses in relation to your sales funnels, customer interactions, and market trends.

THE BENEFITS FOR YOU:

- Increase data protection
- Boost profits
- Set priorities

ADDITIONAL BENEFITS THAT WE CAN PROVIDE:

ChatGPT, Copilot, and the modern workplace have become key topics for all businesses. With us, they are fully integrated into business processes. We test them in future workshops with our customers to identify the scope of the customer's technological requirements and find ways to meet them precisely.

Where the Microsoft universe is integrated into your system landscape, we can use modern approaches involving integration platforms in **Microsoft Azure** and **SAP Cloud Integration (BTP SCI)** to provide the right consultation and implementation for any platform strategy. We can provide you with templates specifically designed for our key industries as project accelerators.
